

Aditya Prabhat Gupta

Full Stack Web Developer (MERN Stack)

+91-9695535380 | adityagupta2474@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

MERN Stack Developer with hands-on experience building production-ready, scalable web applications. Proficient in MongoDB, Express.js, React.js, Node.js, Socket.IO, WebRTC, RESTful API design, OAuth 2.0, JWT authentication, and cloud media pipelines (Cloudinary, FFmpeg). Experienced deploying on Vercel and Render. Hackathon runner-up with a track record of delivering impactful full-stack solutions.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, HTML5, CSS3

Frontend: React.js (Vite), React Router DOM, Axios, Web Speech API, Responsive Design

Backend: Node.js, Express.js, RESTful APIs, Socket.IO, WebRTC, JWT, bcryptjs

Databases: MongoDB (Mongoose), MySQL

Cloud & Tools: Cloudinary, Git, GitHub, Vercel, Render, Netlify

EDUCATION

Roorkee Institute of Technology

B.Tech in Computer Science and Engineering (AI & ML)

Roorkee, Uttarakhand

Aug. 2023 – July 2027

EXPERIENCE

Artificial Intelligence and Generative AI Intern

June 2025 – July 2025

YBI Foundation

Remote

- Completed 4-week intensive training in AI fundamentals, generative models, prompt engineering, and model fine-tuning
- Built and deployed AI-powered applications; gained hands-on experience with real-world AI development workflows

PROJECTS

Convov – Real-Time Chat & Calling App | *MERN, Socket.IO, WebRTC, Cloudinary, Groq API* | [GitHub](#) | [Live](#) Apr. 2026

- Built real-time chat and video calling platform using Socket.IO (instant messaging, typing indicators, presence) and WebRTC (P2P audio/video with SDP/ICE signaling and STUN/TURN for NAT traversal)
- Implemented Google OAuth 2.0 + JWT authentication, multi-format media pipeline (Cloudinary, Sharp, FFmpeg), and Groq API-powered onboarding chatbot with message reactions and real-time edit sync
- Deployed on Vercel (frontend) and Render (backend); resolved production issues including SPA routing, CORS, and OAuth redirect flows

Project Management System | *React.js, Node.js, Express.js, MongoDB, JWT* | [GitHub](#) | [Live](#)

Mar. 2026

- Built full-stack MERN app with Kanban board, real-time progress tracking, team notice board, and role-based access control (Admin/Manager/Member)
- Secured with JWT authentication and bcryptjs; deployed frontend on Netlify and REST API backend on Render

RecipeX – Recipe Discovery Platform | *React.js, React Router, TheMealDB API* | [GitHub](#) | [Live](#)

Dec. 2025

- Built recipe discovery app with debounced API calls reducing unnecessary requests by 70%; deployed on Netlify
- Implemented LocalStorage-based auth with protected routes and persistent user favorites across sessions

AI Medical Assistant Chatbot | *Python, TensorFlow, JavaScript, Groq API, HTML, CSS* | [GitHub](#) | [Live](#)

Mar. 2025

- Runner-Up (3rd Place), RIT Hackathon 2025** (20+ teams) – Led team of 3 to build NLP-based medical chatbot using TensorFlow with input validation and ethical guardrails for safe medical query responses
- Extended in Mar. 2026: integrated Groq API for AI-powered responses, added JWT-based user login/authentication, and built interactive Health Quiz and Yoga & Wellness sections for a comprehensive health platform

ACHIEVEMENTS & CERTIFICATIONS

Hackathon: Runner-Up, RIT Hackathon 2025 – AI medical chatbot (led 3-person team, 20+ competing teams)

Certifications: IIT Bombay – C, Python, and Java Programming; YBI Foundation – AI & Generative AI

Soft Skills: Team leadership, public relations, time management, critical thinking, effective communication
